

Product Name :
Motorized Coder

Product Code :
EQUP-MC20087-0021

Description :

Motorized Coder

Technical Specification :

Capacity 20 per minute
Print Speed Motorized

These coders are ideal for Semi-Automatic Coding. As soon as the product is put on the platform, coding is done automatically. The message to be printed is very easily composed by just push fitting the grooved stereotypes (easily changeable) on to the groove base mat. The Inking system consists of a rechargeable circular cartridge, which is fully enclosed allowing the use of fast-drying & indelible solvent-based inks for porous and non-porous surfaces. The print head slides into the housing for inking & outside for coding onto the product. These are portable, compact and easy to install units. Simply plug the system into any electrical outlet of 230 VAC at your site to start printing.

Features:

- DC Stepper motor based very compact, lightweight and portable design. Can be used as a replacement for Electro-Pneumatic coders (does not require compressor) for Packaging Machine mounting also.
- Low cost machine with very low operating and inventory costs. Uses standard grooved or flat stereotypes and fast drying coding ink.
- In built timer for automatic timed operation (settable) or can be connected to any sensor or foot switch for controlled operation.
- Imported motor and accessories provide reliability & long life.

Supply Voltage	230 Vac \pm 10%, 20 VA
Printing Area	6 to 8 Lines (50 X 100 mm.)
Printing Speed	Max. 50 imprints / min.
Prints using	Easily Changeable grooved / flat, rubber / nylon stereos
Inking Medium	Special rechargeable ink / wax cartridge / ink paste
Printing Medium	Quick drying liquid ink (Black, Red, White*, Golden*, etc.)
Impressions	10,000 per 60 ml. charge
Weight	11 Kgs, 6 Kgs (Only head)
