

**Product Name :**  
Spot Welding Machine

**Product Code :**  
EQUP-MC20105-0002

**Description :**

Spot Welding Machine

**Technical Specification :**

Voltage	400V
Frequency	50/60Hz
Dimension	355X390X350 mm
Weight	48 kg
Power	214kW

Spot welding equipment.. this is a transformer type spot welding machine. dent puller can also be attached to it and can be used as dent puller which is a optional kit Robust single-phase digital multifunction resistance welding unit, with microprocessor control, particularly suitable for car body repair. The convenient display makes it easy for the operator to set and read the sport-welding parameters.
