**Product Name :**  
X Ray Baggage Scanning Machine

**Product Code :**  
EQUP-MC20164-0001

**Description :**

X Ray Baggage Scanning Machine

**Technical Specification :**

Usage/Application: Airports  
Dimensions: L X W X H 1350 L 660W 1160Hmm  
Tunnel Opening: 600mm W 400mm H  
Power Requirements: 220VAC  
Linux Operation System  
ARM CPU  
Digital signal and processor  
Continuous hard work for 10000 hours  
Energy saving design  
High penetration  
Automatic Built in Test and Self Diagnosis

**Equipments Machines Manufacturers**
