

Product Name :
Rotary Premade Pouch Packing Machines

Product Code :
EQUP-PU204000004

Description :

Rotary Premade Pouch Packing Machines

Technical Specification :

The pre-made bag packaging line is suitable for packing granules, liquids, powders, lumps, and a variety of other materials. It can be used in production of standup bag, portable bag, zipper bags, 4-side sealing bag, 3-side sealing bag, paper bag, M type bag, spout bags, retort pouches, specially shaped bags and other pre-made bag types. A wide selection of functional devices and a special feeding system can be installed on this packaging line upon request, helping customers solve various common packaging problems.

All kinds of material such as solid, granule, powder, liquid, thick liquid, and other materials that can be packed by bag.

Selectable Auxiliary Equipment

Pickle filler

Multi-head Computer Weigher

Conveyor

Working Platform

Station Process

Bag Feeding

Date Coding

Bag Opening

Filling

Filling

Standby

Heat Sealing

Forming & Output

Bag Size: W:70~200mm L:100~300mm (depended on the product & bag type)

Filling Range: 5~1500g

Packing Speed: 20~60bags/min (depended on the product and filling weight)

Package accuracy: Error?±1%

Total power: 3kw

Wide application : various shapes, state and nature of products (such as rice, coarse grains, nuts, spicy snack, chestnut liquid, etc.)

Easy to operate: PLC controller HMI system makes easy operation.

Easy to adjust: Synchronously adjust machine clamp, and parameters for different products can be saved and available from database when changing products.

High Automation: Complete all actions by end cam, whose machining technology is more simple than grooved cam, thus cost lower. The highest speed can reach 60pcs/min
