

Product Name :
Food Pillow Packing Wrapping Machine

Product Code :
EQUP-MC20019-0015

Description :

Food Pillow Packing Wrapping Machine

Technical Specification :

Pillow packing wrapping machine is workable for food, hardware, daily necessities, medicines, toys, fruits and vegetables, stationery and other items packaging. Widely used in food factory, hardware and mechanical power plants, daily necessities, plastic toys, sports goods, fruit and vegetable.

The Pillow Packing Wrapping Machine is equipped with advanced process, which has longer service life for use and there is no special need of maintaining. Compared with ordinary product on the market, it is also available of high speed operation. Plus, it can automatically complete all tasks such as measurement, bag making, filling, sealing, cutting, and counting. The Pillow Packing Wrapping Machine is controlled by a stepper motor. The system has high precision, good performance, low noise and excellent stability.

The embedded design of the Pillow Packing Wrapping Machine has a good heat balance ability, adapts to various packaging materials, the seal line is clear, and the seal is strong. It adopts modular design, which can achieve the purpose of multi-purpose machine by replacing different measuring devices. The packaging speed and bag-making length can be adjusted steplessly within a certain range without replacing parts.
