

Product Name :
Dual Wavelength Laser Material Discovery System

Product Code :
EQUP-MC20283-0007

Description :

Dual Wavelength Laser Material Discovery System

Technical Specification :

The product can perform non-destructive inspection, can directly obtain the most original and true information, and does not damage biologically active substances (DNA). It can directly detect sweat fingerprints, dust fingerprints, occult blood fingerprints and oily fingerprints, which is far superior to other light sources.

Shell material: aluminum alloy

Green light power: the wavelength is $532\pm 2\text{nm}$, more than 9W power

Blue light power: the wavelength is $445\pm 2\text{nm}$, more than 12W power

Light spot diameter: 0.5 meter

Diameter: $\varnothing 20\text{cm}$

Light evenness: with uniform circular light output, light uniformity is more than 80%

Weight: $4.2\text{kg}\pm 10\text{g}$
