

**Product Name :**  
Long Distance High-Precision Hunting Laser Rangefinder

**Product Code :**  
EQUP-MC20284-0004

**Description :**

Long Distance High-Precision Hunting Laser Rangefinder

**Technical Specification :**

The product is made of high-density pumped PC+ABS material, more sturdy and durable with sealed design. IP54 protection level, water-proof and dust-proof. 800mAH rechargeable lithium battery is convenient to charge and for long-term use. The glass lens is coated with multi-layer high-definition transparent film for clear vision.

Laser wavelength: 905nm (Class I laser)

Measuring Range: Up to 3000 (m)

Ranging Error:  $\pm 0.3\text{m}$  (?100M);  $\pm 1\text{m}$  (?400M)

Magnification: 6X

Field of View:  $7.5^\circ$

Diopter:  $\pm 3^\circ$

Exit Pupil Diameter: 3.7mm

Objective Lens Size: 22mm

Eyepiece Size: 16mm

Measuring Range of Speed: 20-300km/h

Diopter Adjustment: Eyepiece adjustment

Side Angle Range:  $-60^\circ \sim 60^\circ$

Automatic Shut-down: No operation for 8 seconds

Power Supply: Built-in lithium battery 3.7v/800mAH

Display: LCD

Operating Temperature:  $-10^\circ \sim 50^\circ$

Weight: 168g

Size: 118mm\*75mm\*40mm
