

Product Name :
Non-Magnetic Mine Prodder for EOD Operation

Product Code :
EQUP-MC20282-0015

Description :

Non-Magnetic Mine Prodder for EOD Operation

Technical Specification :

The non-magnetic prodder is made of Copper-beryllium alloy which is special non-magnetic materials for detecting underground or delivery goods that increases safety factor in detecting dangerous goods. No spark will be generated in a collision with metal. It is a one-piece, sectional, mine-prodder that has been designed for easy stowage by de-mining operators when breaching minefields or under-taking mine clearance work.

Overall Length: 80cm

Probe Length: 30cm

Weight: 0.3kg

Probe Diameter: 6mm

Probe Material: Copper-beryllium alloy

Handle Material: No magnetic insulation material
