

Product Name :
Explosive Devices Disrupter

Product Code :
EQUP-MC20282-0035

Description :

Explosive Devices Disrupter

Technical Specification :

The Water Jet Explosive Devices Disrupter is an equipment used for disruption of Improvised Explosive Devices with a high probability of avoiding detonation or explosion. It is composed of barrel, buffer, laser sight, nozzle, projectiles, tripod, cables, etc. The device is especially designed for EOD and IED persons. The disrupter comprises a specially designed liquid container. A high pressure nuzzle is available to generate a very high velocity jet of cool liquid in case of handling with high duty IED.

Weight (Main Unit): 21 kg

Package Dimension?Main Unit?: 64x28x52 cm

Package Dimension ?Accessory box?: 56x22x46 cm

Total Weight: 45 kg

Detonate Power Supply: 3-9V/1A

Battery: 9V

Caliber: 38mm
