

Product Name :
Small Dragon Fruit Juice Filling Processing Making
Machine Plant Line

Product Code :
EQUP-MC20016-0004

Description :

Small Dragon Fruit Juice Filling Processing Making Machine Plant Line

Technical Specification :

Full filling avoids the bottle distorted after cooling and reduces dissolved oxygen at the maximum degree.
Product storage hopper and feed system adopt reasonable product feed design (constant flow, constant pressure, no foaming).

Product hopper with reasonable structure (exhaust, fully close, the temperature can be detected)

The medium and high-speed line adopts a product distributor instead of a large liquid carousel, which can be cleaned completely by pressure cleaning with CIP.

Sanitary filling valve system umbrella-flow type structure, high speed.

Perfect hot filling temperature control system.

Product recycling tank system with automatic product feed startup. perfect CIP system.
