

**Product Name :**  
Food Plate

**Product Code :**  
EQUP-MC20078-0004

**Description :**

Food Plate

**Technical Specification :**

Plate heat exchanger plate is designed for plate heat exchanger used to isolate the media and heat exchange plate, plate heat exchanger is an important part.

Its main materials are stainless steel (SUS304.316), titanium and titanium (Ti, Ti-Pd), 20Cr, 18Ni, 6Mo (254SMO), alloy (C276), copper (H68)

**Technical Parameters**

AISI 304: 0.4 or 0.5mm thickness

AISI 316: 0.5 and 0.6mm thick

254 SMO (high alloy): 0.6mm thickness

Titanium: 0.5 and 0.6 mm thickness

Some have thicker plates (high pressure conditions)

Some PHEs have 0.4mm (low pressure conditions)

Hastelloy C-276: usually 0.6mm
