

Product Name :
Fruit Brush Washing Machine

Product Code :
EQUP-MC20088-0005

Description :

Fruit Brush Washing Machine

Technical Specification :

Product performance characteristics

1. This machine is suitable for the cleaning of regular materials, such as: citrus, apple, carrot, etc., through the high-speed rotating brush and spray water at the same time, the surface of the fruit is brushed, the cleaning effect is good;
2. Stainless steel frame and imported nylon brush are used to meet food hygiene standards;
3. According to different materials, choose different hardness of the brush to avoid surface damage;
4. The bottom of the equipment is equipped with an impurity filter water collecting tray to facilitate timely removal of impurities;
5. The spray pressure of the spray device can be adjusted, and the spray head can be disassembled;
6. The adjacent brush rollers are cross-engaged to facilitate the 360 degree cleaning of the material;
7. The design is simple and easy to use and maintain.

Capacity(T/H)	Power(KW)	Dimension(mm)
1-3	0.75	3500x800x1800
3-5	1.1	4000x1000x1800
8-10	1.5	5000x1200x1800
13-15	2.2	6000x1400x1800
