

Product Name :
Mineral Water Production Plant

Product Code :
EQUP-MC20089-0011

Description :

Mineral Water Production Plant

Technical Specification :

Complete Mineral Water Production plant

The mineral water plant are for producing various kinds of mineral drinking water.

The complete mineral water production plant including

- 1.Raw water storage tank
- 2.Raw water pump
- 3.Sand filter (Multi-media)
- 4.Active carbon filter
- 5.Water softener
- 6.Micro filter
- 7.High pressure pump
- 8.Hollow fiber ultra filter
- 9.Sterilizer (U.V or Ozone)
- 10.Water tank
- 11.Filling and packing machine

Raw material

Product

Capacity

Product package

Tap water, underground water

Mineral drinking water

5T/D – 1000T/D

plastic bottle, plastic cup, plastic bag, etc
