

Product Name :
Walnut,Almond Milk Processing Plant

Product Code :
EQUP-MC20089-0025

Description :

Walnut,Almond Milk Processing Plant

Technical Specification :

Suitable for walnut, almond nuts processing to produce walnut sauce (milk), almond, walnut beverage products. This production Plant is mainly composed of shelling machine, roasting machine, peeling machine, superfine grinding, homogenizer, degasser, sterilization machine, autoclave, etc. This production Plant is mainly composed of cleaning machine, elevator, UV sterilizer, destoner, pulper, degasser, homogenizer, sterilization machine, filling machine equipment, etc.

Raw material	Walnut, almond nuts
Finished product	Walnut (milk), walnut milk beverage
Capacity range	500kg/hour to 10tons/hour
Package material	According to clients' requirements
Package volume	According to clients' requirements
Package options	Ring-pull can/ tetra pak /oral liquid bottle/PET
Design capacity ;bottle/PET	According to clients' requirements
