

Product Name :
Continuous Band Sealer machine

Product Code :
EQUP-MC20086-0024

Description :

Continuous Band Sealer machine

Technical Specification :

Automation Grade Semi-Automatic
Operational Mode Vertical
Material M.S.
Production Capacity Variable
Capacity Variable
Max. Conveyor Load 5 kg
Motor Power Singal Phase

Maxi Vertical Band Sealers are used to perform band sealing operations in the Vertical pose. It is efficient packaging equipment that is cost effective and known for its high performance. The sealer has a PVC conveyor belt of width 200 millimeter that is capable of carrying weight of up to 75 Kilograms. It is produced by using high grade steel and castings along with epoxy powder coated body.

Our machine has some special features that include:

- Brass Heater Jaws for better bonding
- Geared motor
- Temperature Controller

Technical Specifications of Maxi Horizontal Band Sealer:

PARAMETERS	MAXI HORIZONTAL
Body Construction	Heavy Duty MS Body Construction
	Epoxy Powder Coated
	Machined Parts Made From Graded Steel & Castings
Electrical & Electronic	Digital Temperature Controller
	240 V Plug in Relays
	S.S Ceramic Cartage Heaters
	1/6 HP HI Phase Cleared Motor Signals Phase Available on Request
	PID Controller Optional
Mechanical Feature	Fixed Speed 10 to 12 Mtr/min
	0 to 12 Meters AC Variable Speed
	Grip Belt
	Conveyor Belt 200 x 1150
