

Product Name :
Single Chamber Vacuum Packaging Machine

Product Code :
EQUP-MC20086-0037

Description :

Single Chamber Vacuum Packaging Machine

Technical Specification :

Our organization is counted among the most trusted business entities, offering optimum quality Single Chamber Vacuum Packaging Machine. Manufactured using the top quality of material and advance techniques, our offered packaging machine is available in various sizes and other related specifications on customer's demand. As well, this packaging machine is properly checked on various parameters to assure its flawlessness.

Features:

- Reliable operations
- Less maintenance
- User friendly design

Specifications:

- Vacuum chamber size: 300Wide x 330 Depth x 80 Height
- Overall Machine Size: 350 Wide x 410 Depth x 325 Height
- Construction: All Stainless Steel 304
- Vacuum Chamber: Stainless Steel 304 and Mild steel cabinet
- Lid: Transparent Acrylic to observe the complete process
- Vacuum Pump: By default 100 or 150 Liters / Minute
- Sealing Bar: 290mm or 320mm Long 1 / 2 number
- Gas flushing: Optional

-
- Packing cycle: 15 to 35 seconds depending upon the product & vacuum pump
 - Electric Consumption: Less than 0.5 kw
